Abdul Rehman

Front-End Developer @ Dycoders | React, Vue, Vite | Firebase &
Clerk Integration | HTML, CSS, SCSS/LESS, Tailwind, JavaScript
Hāsilpur, Punjab, Pakistan

Summary

As a dedicated Front-End Developer at Dycoders, I possess over one year of practical experience crafting and constructing responsive, high-performing web applications. My expertise encompasses utilizing cutting-edge technologies such as ReactJS, VueJS, Vite, Firebase, Tailwind CSS, and Bootstrap.

My key abilities center around designing user-friendly, scalable UI/UX solutions and tackling intricate challenges with bespoke software development. I excel in dynamic settings where innovation and excellence are paramount to achievement.

I'm actively enhancing my skillset by embracing cutting-edge AI tools like the OpenAI SDK, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), and Computer Vision, all while focusing on JavaScript backend development. My ambition is to become a well-rounded Full-Stack Developer specializing in AI-driven applications, creating innovative and impactful solutions that deliver real value.

Capabilities & Tools:

User Interface: ReactJS, VueJS, Vite, Tailwind CSS, Bootstrap

Server-side: Node.js, Firebase, utilizing JavaScript.

Artificial Intelligence: Leveraging OpenAI's Software Development Kit, Large Language Models, Retrieval Augmented Generation, and Computer Vision capabilities.

Tools & Practices: Responsive Design, High-Performance Optimization, Custom Software Development, Scalable Architecture

Let's connect if you're interested in frontend innovation, AI-powered solutions, or custom software development!
